Minimum number of Passengers: 2

Location: Puno, Lake Titicaca

Itinerary and Description of Services:

Puno is the entrance point to one of the most beautiful scenic tours in all of South America: Lake Titicaca. At 3,800 meters altitude, this is the highest navigable lake in the entire world, within which thrive a variety of lake-side communities whom still conserve their characteristic customs of traditional living. Among these can be found the population of the floating islands of Uros, the island communities of Taquile and Amantani and the coastal communities of Llachón, each one actively participating in the maintenance of their living highlands culture through their craft technically developed over centuries. Puno is also the folklore capital of Peru thanks to its extraordinary variety of dances and costuming. Our team is in charge of providing all the necessary facilities and requirements to ensure security and a pleasant tour.
